About Dr. Roger Greenaway

Dr. Roger Greenaway is the World's foremost expert on reviewing and debriefing skills

These two workshops include a program for trainers and facilitators to expand their tool box and a program that introduces **effective tools for making learning transfer back to "real world situations."** Learn directly from the trainer who trains some of the world's top training and facilitation companies in reviewing and debriefing skills.

Clients' comments

"Your training has had a huge impact. At a guess the training of 8-10 people that day has led to the use of your tools to at least 500 people plus! Your training workshop 'moving bodies moving minds' has certainly done that. It opens minds, ensures everyone contributes, helps people think differently, shares different views and develops ideas."

Dawn Cordy

Innovation director, HR partner & Strategy manager of Egmont

"I value wisdom. I value group wisdom most of all because no one of us is as wise as all of us. Roger is a world class master at evoking wise action from groups. If you wish your groups and teams to take even wiser and even more effective action, I strongly recommend getting to know Roger personally. "

Tim Pearson

Personal and Professional Coach, Alaska
